

JON HANN SEMINAR

June 6-7-8, 2003

The Skyline Brittany Club in conjunction with the German Shorthaired Pointer Club of Colorado invite you to INVEST IN THE FUTURE (of your pointing dog) Because of Perfection Kennels new and easy to apply training methods, we are getting many requests to do more seminars each year. Each student at our seminars is amazed at the abilities they find in themselves and amazed at the difference it makes in the response of their dogs.

Participants at our seminars can't believe that they have bought all the videos, and have been to the most popular seminars in the US, to find that training is not that difficult. It is just a matter of being guided in the right direction. COME LET US GUIDE YOU.

The methods that Jon and Cindy bring to the seminars provide a wealth of knowledge about training dogs that has been developed through 18 years of professional training of Pointing and Retrieving breeds. These methods have been developed without trying to copy the methods of the past, which in many ways were very cruel and inhumane.

The methods that you will learn at our Seminars are humane and work on any dog, from the most timid to the toughest of dogs. These methods are based on the theory of making it simple for the dog to understand. With our proven techniques with the Electronic Collar, we will make you a very knowledgeable and fine tuned trainer. You will obtain abilities and skills that most pro trainers don't possess. We can give you that edge that will make you a better trainer than your rivals. Most people use the same old methods. It is time to move ahead.

Even if you have been to all the other Seminars, you are about to learn a whole new and different approach, that we guarantee will make you a better trainer.

Open to all pointing breeds, \$100 per attendee (1 dog). Contact Donna Bush (GSPC of Colo.) (303) 425-7097 or Jerry Hogan (Skyline Brittany Club) (303) 644-4959.
